Where I Come From

I have helped students in three different settings.

- Public school
- Alternative education
- Group home

In each setting I had the opportunity to work with different types of learners, which called for the use of creative teaching techniques that fit the students style of learning. Students in each setting also benefitted from not only group instruction but quality one-on-one instruction as well.

Methods & Instruction

- Differentiated Instruction
- Critical Thinking Skills
- Fostering Independence
- Use of the Pause Technique
- Assessment and Practice
- Use of Multi-Media Tool

What I provide is a positive learning environment with an alternative and sometimes complimentary way of tutoring. It is my goal to give your child the quality individualized educational services they need to grow in their learning and become independent learners.
